

CL1000-INTRODUCTION TO INFORMATION AND COMMUNICATION TECHNOLOGIES

Lab # 01

PART I: DATUM (FAST-NU) 'S LOCAL SERVER

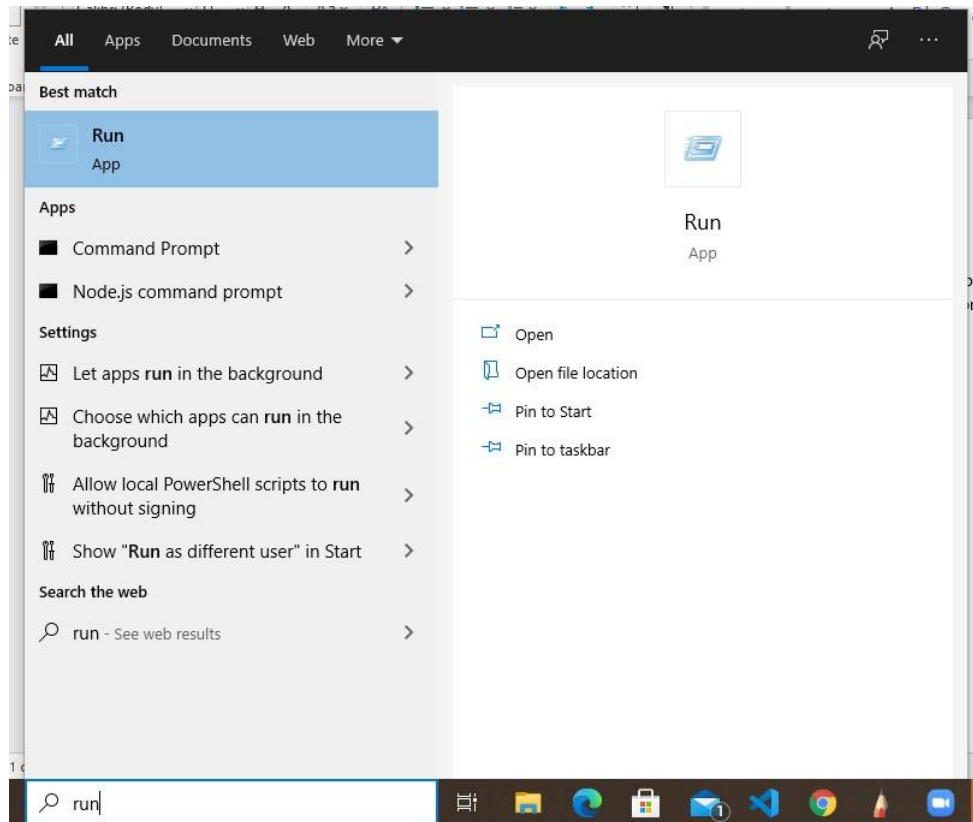

Datum is a locally installed server that you can use to access the Software and other material provided by the IT Department. The server is installed locally so it can only be accessed on the local university internet and not otherwise.

How to Access:

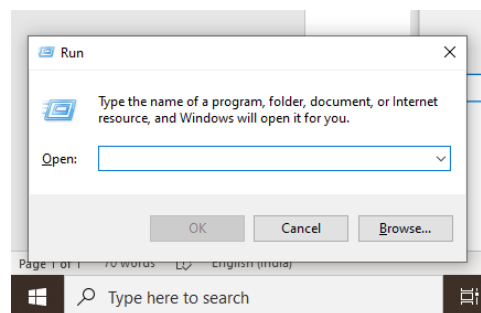

To access the Datum server login into the PC and go to Windows start button.

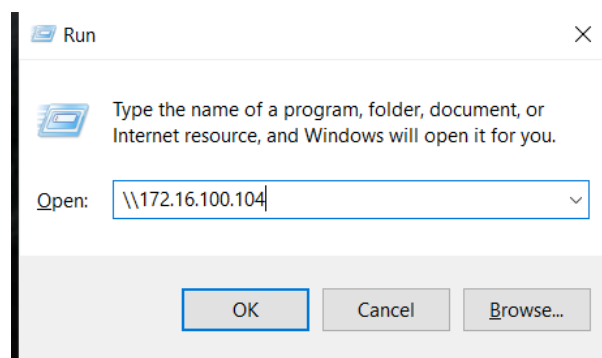

Search for “Run” and click to open the application

A small pop-up window will appear at the bottom of your screen as shown below:

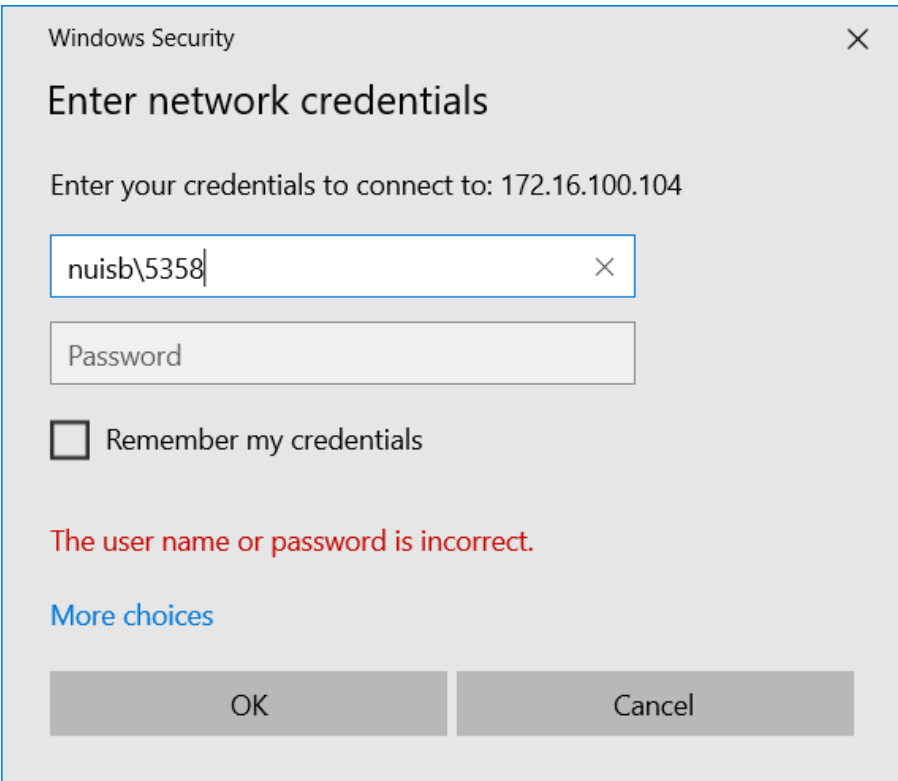

Type the IP Address “172.16.100.104” in the textbox and Click the “Ok” Button.

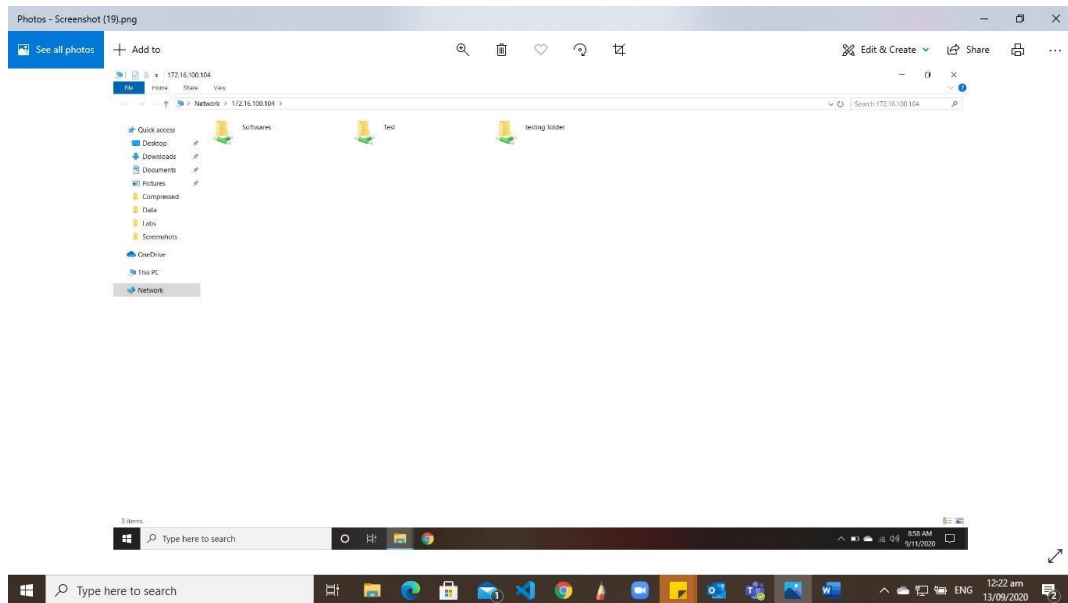

A Pop-Up window will appear on the screen. Type your NU Id and Password that was provided to you by the university to access the Internet.

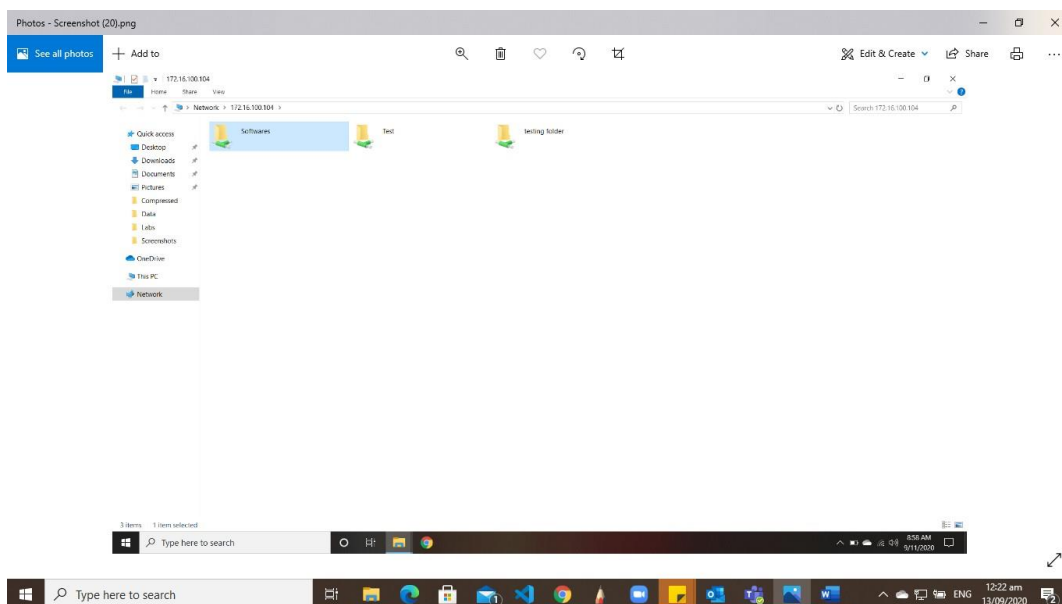

Type “nuisb\Username” and password

Once you are logged in you will see several files and folders present at the university server.

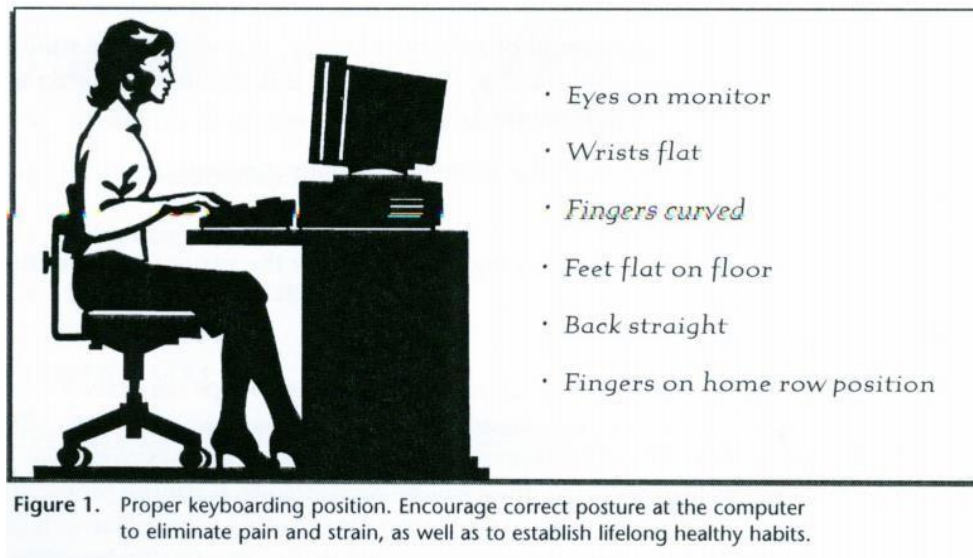

You can copy and Paste the required files on your Local machine.

PART II: KEYBOARD TECHNIQUES AND TYPING ESSENTIALS

As a computer scientist you will excessively use the keyboard keys throughout your Degree as well as your career. Effective and correct use of keyboard keys not only increase your capacity to work but also boost your confidence as a beginner in the field.

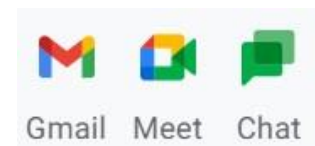

PART III: GOOGLE APPLICATIONS

Google Apps for Education is a core suite of productivity applications that Google offers to schools and educational institutions. A free suite of easy-to-use tools that provide a flexible and secure foundation for learning, collaboration, and communication.

1. Communicate flexibly

Connect your institution with email, chat, and video.

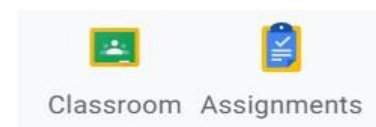

- Gmail
- Meet
- Chat

2. Boost productivity

Easy-to-use tools to help simplify tasks and save time.

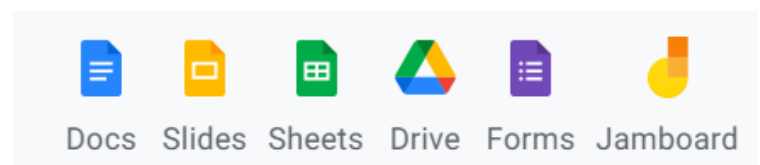

- Google Classroom
- Google Assignments

3. Enable seamless collaboration

Make it easy for everyone in your community to collaborate together.

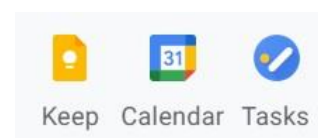

- Google Docs
- Google Slides
- Google Sheets
- Google Drive
- Google Form

4. Organize your tasks

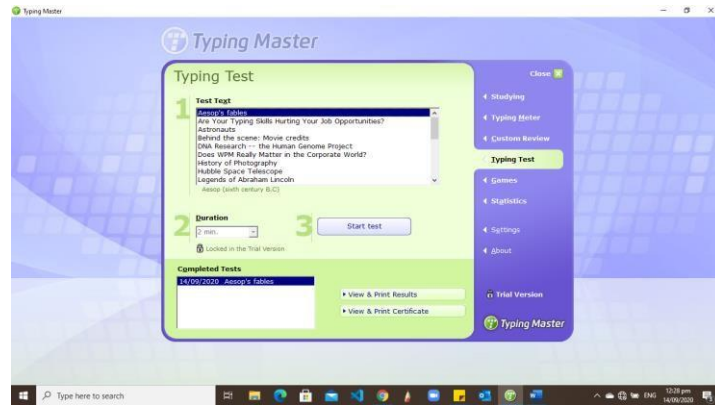

Build to-do lists, create task reminders, schedule meetings, and help keep on top of tasks.

- Google Calendar
- Google Tasks

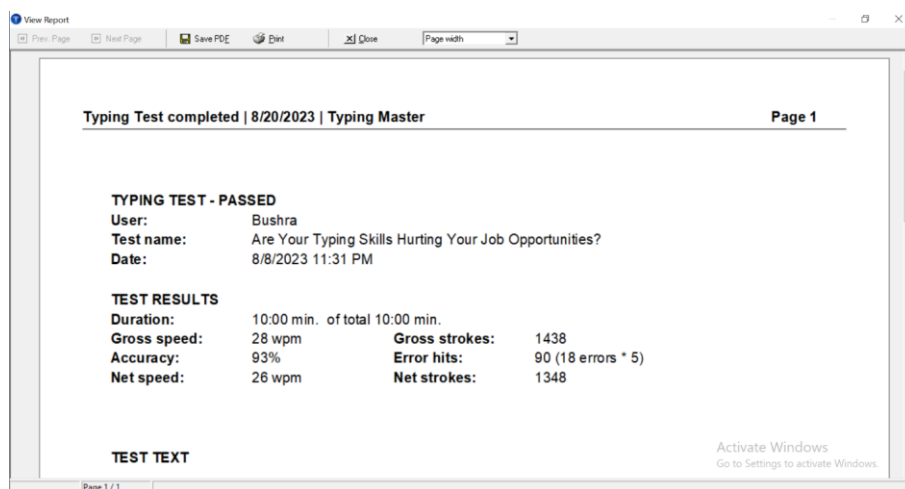

Lab Task:

After completing the training lessons. Go to the take test option and select the first option to take a typing test and click start test

Once finished at the bottom screen click the option View & Print Results

Select the save as pdf option. Save the file with your RollNo-FirstName and submit it.
